

CBI ANNOUNCES LISTING PROJECT FOR \$FAV - NEW TOKEN DEDICATED TO "FOOTBALL AT ALPHAVERSE" UNIVERSE

CBI's listing project includes ChilizX and other prominent centralised and decentralized exchanges

CRYPTO BLOCKCHAIN INDUSTRIES (CBI, Euronext Growth Paris: FR0014007LWO - ALCBI) announces a listing project, scheduled for 2023, of the \$FAV token on the ChilizX exchange platform, as discussions to list the token advance. \$FAV is the utility token for the "Football At AlphaVerse" universe dedicated to football. This listing project is subject to the completion of the legal and technical review of the file by ChilizX.

A total of 11 billion units of the \$FAV token have been created. The potential listing on ChilizX will involve a direct market release of an initial series of \$FAV tokens in a proportion that, during the first few weeks, will depend on the volume of demand and is expected not to exceed 15% of the total \$FAV tokens created.

The listing will potentially take place once the review of all technical and legal aspects is finalized, expected to occur during the calendar year 2023.

The utility token \$FAV will have numerous functionalities, such as facilitating microtransactions within the universes, participating in quests or mini-games, purchasing NFTs, implementing referral programs, accessing discounts on purchases, and earning FAV tokens based on user creativity and engagement, similar to a loyalty card. An article on the AlphaVerse blog describing the initial characteristics of the \$FAV token is available at the following link: <https://alphaverse.com/blog/items/the-fav-token-your-passport-to-football-at-alphaverse/>.
